

Transcript for *All Birds Have Anxiety* (Jessica Kingsley Publishers) Preview Video

Preview (0:00 – 1:08)

Hi everyone! This is Colleen from the KU Natural History Museum; and I just want to let you know that I am so excited for Story Book Science to start tomorrow at 10AM on Facebook Live. We are going to be reading our first story, *All Birds Have Anxiety* by Kathy Hoopmann. We'll be reading it with permission from Jessica Kingsley Publishers; and like I said, I am so excited to start with this book. It's one of my favorites, um, and I can't wait to share it with everyone; and as we continue with Story Book Science, we'll be reading a lot of other books that I'm also really excited about. So just to give you a sneak peek, one book we'll be reading is *Pollen: Darwin's 130-Year Prediction*, and we'll also be reading *Wisdom The Midway Albatross*. So that's just a little sneak peek at what we'll be doing. Like I said I'm so excited for Story Book Science, so meet me here tomorrow, 10AM, on Facebook Live, and we'll get started! I hope to see you then!
